

## LIST OF TABLES

|                               | <u>Page</u>   |
|-------------------------------|---|
| <u>BACKGROUND INFORMATION</u> |   |
| Table 1                       | Patrol Officer Duties and Task Groups (1979) . . . . . 25   |
| Table 2                       | Patrol Officer Physical Job Demands (1985) . . . . . 26   |
| Table 3                       | Patrol Officer Rates of Critical Physical<br>Activities by Type of Activity (1992) . . . . . 27                       |
| Table 4                       | Entry-Level Uniformed Job Analysis (1998) . . . . . 28  |
| Table 5                       | Environmental Factors and Working<br>Conditions That Can Be Associated With<br>Patrol Officer Job Duties . . . . . 30 |

## MEDICAL EXAMINATION AND EVALUATION PROTOCOLS

### CHAPTER I: Cardiovascular System

|           |   |     |
|-----------|---|-----|
| Table I-1 | New York Heart Association Cardiovascular<br>Classification System, Functional<br>Classification . . . . .  | I-4 |
| Table I-2 | New York Heart Association Cardiovascular<br>Classification System, Therapeutic<br>Classification . . . . . | I-4 |
| Table I-3 | Relationship of METS and Functional Class<br>According to 5 Treadmill Protocols . . . . .                   | I-7 |

### CHAPTER II: Dermatology

|            |   |      |
|------------|---|------|
| Table II-1 | Description of Primary Skin Lesions . . . . . | II-3 |
|------------|---|------|

### CHAPTER III: Endocrine System

|             |   |        |
|-------------|---|--------|
| Table III-1 | Studies of the Incidence of Hypoglycemia<br>in Persons with Diabetes . . . . .                  | III- 5 |
| Table III-2 | Insulin Infusion Test Protocol . . . . .  | III-12 |
| Table III-3 | Assessment of Cognitive and Behavioral<br>Functioning During Insulin Infusion Testing . . . . . | III-13 |

CHAPTER VI: Oncology

|            |   |      |
|------------|---|------|
| Table VI-1 | Toxicity of Anticancer Drugs and Hormones . . . . .   | VI-3 |
| Table VI-2 | Recommendations for Supplemental Testing<br>of Candidates Who Are at Risk of Delayed<br>Toxicity from Selected Anticancer Drugs . . . . . | VI-5 |
| Table VI-3 | Age-Adjusted SEER/5 - Year Survival Rates . . . . .   | VI-6 |

CHAPTER VII: Infectious Diseases

|             |   |        |
|-------------|---|--------|
| Table VII-1 | 1992 Revised CDC HIV Classification<br>System and Expanded AIDS Surveillance<br>Definition for Adolescents and Adults . . . . .                                     | VII- 6 |
| Table VII-2 | Recent Studies of Survival After<br>Diagnosis of AIDS . . . . .   | VII- 7 |
| Table VII-3 | Risk of Hepatitis B Infection After<br>Exposure to HBeAg+/HBeAb- Blood<br>Without Post-Exposure Prophylaxis . . . . .   | VII-12 |
| Table VII-4 | Assessment of the Maximal Annual Risk<br>of Substantial Harm to a Suspect Due to the<br>Employment of an Applicant Who is a Chronic<br>HBV or HCV Carrier . . . . . | VII-13 |
| Table VII-5 | Rate of HBV Infection Following HBIG<br>Post-Exposure Prophylaxis . . . . .   | VII-14 |

CHAPTER VIII: Musculoskeletal System

|              |  |         |
|--------------|--|---------|
| Table VIII-1 | Post-Operative Complaints in Patients Who<br>Are Treated by Meniscectomy . . . . .   | VIII-21 |
| Table VIII-2 | Specific Task Performance (Percentage) in<br>ACL-Disrupted Patients, 5 Years Since Injury . . . . .                                    | VIII-30 |
| Table VIII-3 | Pain, Swelling, and Giving Way in Chronic<br>ACL Patients During Activities of Daily Living . . . . .                                  | VIII-31 |
| Table VIII-4 | Sports Activity in Patients with Nonoperative<br>Treatment of Isolated ACL Injuries . . . . .  | VIII-32 |
| Table VIII-5 | Summary of ACL Repair Studies . . . . .  | VIII-34 |
| Table VIII-6 | Use of >5 mm Side-to-Side Difference on<br>KT-1000 to Distinguish Between "Copers"<br>and "Non-Copers" Following ACL Rupture . . . . . | VIII-40 |

|  | <u>Page</u> |
|--|-------------|
| Table VIII-7    Use of >7.5 mm Side-to-Side Difference on<br>KT-1000 to Distinguish Between "Copers"<br>and "Non-Copers" Following ACL Rupture<br>(Maximum Manual Force) .....               | VIII-40     |
| Table VIII-8    Limb Symmetry in One-Legged Hop Testing<br>of Normal Patients .....  | VIII-42     |
| Table VIII-9    Development of Instability vs. Time .....  | VIII-43     |
| Table VIII-10   Partial ACL Tears .....  | VIII-45     |
| Table VIII-11   Classification of Acromioclavicular Injuries .....   | VIII-48     |
| Table VIII-12   Percent of Patients Who Experience at Least<br>One Recurrence of Anterior Dislocation by<br>Age and Years of Follow-Up .....   | VIII-51     |
| Table VIII-13   Percent of Patients Who Experience at Least<br>One Recurrence of Anterior Dislocation or<br>Subjective Instability by Age and Years of<br>Follow-Up .....                    | VIII-52     |
| Table VIII-14   Percent of Patients With No Dislocation<br>Recurrence at Two Years of Follow-Up<br>Who Experience at Least One Recurrence<br>After Three Additional Years of Follow-Up ..... | VIII-52     |

#### CHAPTER IX: Neurology

|   |      |
|---|------|
| Table IX-1    Evaluation Outline for Assessing Candidates at<br>Increased Risk of Seizure .....                   | IX-4 |
| Table IX-2    Annual Probability of Seizure Recurrence<br>After a Single Unprovoked Seizure .....                 | IX-5 |
| Table IX-3    Annual Risk of Seizure Recurrence in Newly<br>Diagnosed Epileptic Patients on Medication .....      | IX-6 |
| Table IX-4    Multivariate Model for Making Risk Assessments on<br>Candidates Who are 2+ Years Seizure-Free ..... | IX-7 |

#### CHAPTER XI: Vision Guidelines

|   |      |
|---|------|
| Table XI-1    Patrol Officer Importance Ratings of<br>17 Visual Skills .....                  | XI-4 |
| Table XI-2    Percentage Correct Identifications for<br>"Shoot" and "No Shoot" Scenario ..... | XI-9 |

|             | <u>Page</u>  |
|-------------|--|
| Table XI-3  | Recognition of Faces and Facial Expressions<br>as a Function of Visual Acuity ..... XI-11                                      |
| Table XI-4  | Critical Task Performance vs. Far Acuity<br>as Determined by Decorrection Studies ..... XI-13                                  |
| Table XI-5  | Distribution of Uncorrected Vision<br>in 200 LAPD Applicants ..... XI-14   |
| Table XI-6  | 1987 LAPD Vision Questionnaire of<br>Incumbent Police Officers ..... XI-16   |
| Table XI-7  | Number of Prescription Eyeglass<br>Reimbursement Requests Submitted by<br>CHP During 1979-80 ..... XI-17                       |
| Table XI-8  | Reported Instances of Negative<br>Consequences Resulting from Use of<br>Corrective Lenses by Officers ..... XI-18              |
| Table XI-9  | Reported Instances of Negative<br>Consequences Resulting from Corrective<br>Lenses as Observed by Other Officers ..... XI-20   |
| Table XI-10 | Reported Instances Where Corrective<br>Lenses Provided Officers Protection ..... XI-21   |
| Table XI-11 | Reported Instances Where Other Officers'<br>Corrective Lenses Provided Protection ..... XI-22                                  |
| Table XI-12 | Rates of Soft Contact Lenses "Drop-Out" ..... XI-27  |
| Table XI-13 | Peter's Relation of Error and Acuity ..... XI-36   |
| Table XI-14 | Breakdown of Critical Incidents<br>Involving Color Identification ..... XI-47  |
| Table XI-15 | Percentage of Candidates Reporting<br>Difficulty With Color When Driving ..... XI-48   |
| Table XI-16 | Nomenclature, Classification, and<br>Prevalence in Males (Females) of<br>Different Types of Human Color Vision ..... XI-49     |
| Table XI-17 | Examples of Some Commonly Prescribed<br>Drugs Classified According to Color<br>Deficiencies They Reportedly Induce ..... XI-49 |
| Table XI-18 | Clinically Distinguishable Differences<br>Between Acquired and Hereditary Color<br>Vision Defects ..... XI-50                  |
| Table XI-19 | POST Color Simulation Test Results ..... XI-52   |

|             |   |       |
|-------------|---|-------|
| Table XI-20 | Percentage of Individuals Reporting<br>Difficulty With Everyday Tasks That<br>Involve Color ..... | XI-55 |
|-------------|---|-------|

CHAPTER XII: Hearing Guidelines

|             |   |       |
|-------------|---|-------|
| Table XII-1 | Hearing Related Tasks .....   | XII-3 |
| Table XII-2 | Summary of 1998 Subject Matter Expert Panel<br>Ratings of Hearing Related Tasks .....   | XII-4 |
| Table XII-3 | Distribution of Background Noise Levels<br>for Patrol Duties .....  | XII-5 |
| Table XII-4 | Expected Speech Comprehension at Various<br>Background Noise Levels and Directionality for<br>Persons with Normal Hearing ..... | XII-6 |

## LIST OF FIGURES

|   | <u>Page</u> |
|---|-------------|
| <u>MEDICAL EXAMINATION AND EVALUATION PROTOCOLS</u>   |             |
| CHAPTER III: <u>Endocrinology</u>   |             |
| Figure III-1: Sample Pre-Placement Agreement for Patrol Officers Using Insulin .....  | III-15      |
| CHAPTER IV: <u>Gastrointestinal System</u>  |             |
| Figure IV-1 Histologic Patterns of Liver Inflammation and Necrosis and their Prognostic Implications .....                      | IV-7        |
| CHAPTER VIII: <u>Musculoskeletal System</u>   |             |
| Figure VIII-1 Horizontal Displacement Greater than 3.5 mm of One Vertebra in Relation to an Adjacent Vertebra .....             | VIII- 6     |
| Figure VIII-2 Rotational Difference Between Adjacent Vertebra .....   | VIII- 7     |
| Figure VIII-3 McMurray's Test .....   | VIII-19     |
| Figure VIII-4 The Q Angle Imposes a Lateral Vector on the Terminal Degrees of Extensor Movement .....                           | VIII-23     |
| Figure VIII-5 Measurement of Congruence Angle .....   | VIII-26     |
| Figure VIII-6 Lateral Patellofemoral Angle .....  | VIII-26     |
| Figure VIII-7 Patellar CT Measurement of Congruence Angles in Subluxers and Controls .....                                      | VIII-27     |
| Figure VIII-8 Extra-Articular Anterior Cruciate Ligament Reconstruction, Using the Arnold-Coker Iliotibial Band Technique ..... | VIII-33     |
| Figure VIII-9 Intra-Articular Reconstruction After Anterior Cruciate Ligament Injury .....                                      | VIII-33     |
| Figure VIII-10 The Lachman Test .....   | VIII-35     |
| Figure VIII-11 Flexion-Rotation Drawer Test .....   | VIII-36     |
| Figure VIII-12 KT-1000 Test .....   | VIII-37     |
| Figure VIII-13 KT-1000 Measurements .....   | VIII-39     |

CHAPTER XI: Vision Guidelines

|                      |   |       |
|----------------------|---|-------|
| Figure XI-1          | "Shoot-No-Shoot" Error Rates of Police Officers Tested at 20 Feet in Dim Light .....                          | XI- 9 |
| Figure XI-2          | Average Correct Responses for Object Detection and Weapon Identification as a Function of Visual Acuity ..... | XI-10 |
| Figure XI-3          | Sample Pre-Placement Agreement Involving Use of Soft Contact Lenses .....                                     | XI-28 |
| Figure XI-4          | Non-Compliance of LAPD Officers with Soft Contact Lenses Based on Time Since Hire .....                       | XI-29 |
| Figure XI-5          | Reasons for Discontinuing Contact Lens Wear .....   | XI-29 |
| Figure XI-6          | Sample Soft Contact Lens Examination Form .....   | XI-37 |
| Figures XI-7 - XI-13 | Normal and Color Defective Response Patterns on the Farnsworth D-15 .....                                     | XI-56 |

CHAPTER XII: Hearing Guidelines

|               |   |        |
|---------------|---|--------|
| Figure XII-1: | Example of a High-Frequency Notch Audiometric Configuration ..... | XII- 8 |
| Figure XII-2: | Example of a Relatively Flat Audiometric Configuration .....      | XII-10 |
